2025 Cross Connection Survey

Clear Water Service Corporation is committed to providing quality and safe drinking water to all residential and commercial users. To help ensure that the drinking water remains safe, Clear Water Service Corporation adopted a Cross Connection Control Program. The Illinois Environmental Protection Agency (IEPA) requires every water supply to develop and implement a cross connection (backflow prevention) control program. One requirement of this program is to send a survey to all members every two years. Your cooperation is greatly appreciated. Please return this survey to our office by mail, fax, or email **before April 1, 2025.**

Customer Name _____

Customer Address _____

Residential Commercial

	YES	NO
1. Do you have an underground lawn sprinkler system?	<input type="checkbox"/>	<input type="checkbox"/>
